

SAI HARI KRISHNA

Aspiring Data Analyst | Pursuing BTech | CSE (DATA SCIENCE)

✉ mudraboinasaiharikrishna@gmail.com | ☎ 9704572415 | 📍 India | 🌐 [sai-hari-krishna-m-39759a34b](https://www.linkedin.com/in/sai-hari-krishna-m-39759a34b)

CAREER OBJECTIVE

Motivated and detail-oriented B.Tech CSE (Data Science) student seeking an entry-level Data Analyst role to apply skills in SQL, Python, Excel, Power BI, and Tableau to analyze data, generate actionable insights, and support data-driven decision-making.

EDUCATION

KALLAM HARANADHAREDDY INSTITUTE OF TECHNOLOGY

Pursuing BTech -7.5/10

2023-2027

WORK EXPERIENCE

FRESHER

TECHNICAL SKILLS

- EXCEL (Data cleaning, pivot Tables)
- SQL (Basic Queries)
- PYTHON
- POWERBI (Dashboards, Visualization)

PROJECTS

Supermarket Sales Analysis - Power BI

- Cleaned and preprocessed raw supermarket sales data using Power BI Query.
- Built an interactive Power BI dashboard to analyze sales, profit, and category-wise performance.
- Created KPIs and visualizations to identify top-performing products and regions.
- Generated actionable insights to support data-driven business decisions

Bike Sales Analysis - Excel, Power BI

- Performed data cleaning and transformation using Excel formulas and filters.
- Analyzed customer demographics such as age, income, gender, and region.
- Designed an interactive Power BI dashboard to visualize sales trends and customer segmentation.
- Identified key factors influencing bike sales and revenue growth.

INTERNSHIPS

Data Analytics Intern– SmartBridge (Tovcraft Tales Project) (Duration : 1Month)

- Collaborated with a team to analyze *Tovcraft Tales* business data using tableau.
- Cleaned and prepared datasets to ensure accuracy and consistency for analysis.
- Designed interactive Tableau dashboards to visualize sales trends, customer behavior, and product performance.
- Presented insights to support data-driven business decisions.

Tools & Technologies: Tableau, Excel

Data Science / Machine Learning Intern – Codech IT Solutions (Duration: 1month)

Project: Amazon Product Reviews Analysis

- Analyzed Amazon product reviews using Python to extract meaningful insights from customer feedback.
- Performed data cleaning, text preprocessing, and exploratory data analysis (EDA).
- Visualized key insights and model results using Power BI dashboards.

Tools & Technologies: Python, Machine Learning, Power BI

CERTIFICATIONS

- HackerRank : Python(Basic)
- HP Life : Data Science & Analytics
- Coursera: Introduction to MicroSoft Excel
- Simplilearn : SQL for Data Analysis

STRENGTH

- Analytical Thinking
- Quick Learner
- Team Collaboration

DECLARATION

I hereby declare that the above information is true to the best of my knowledge.
